## "PLANNING AHEAD, JOINED WITH CO-OPERATION MAKES BUSINESS SUCCESSFUL"

(Contributed by W. Davies)

The above was the subject of an address given by Sir Joseph Flavelle and is reported in The Financial Post of September 17th. There are one or two extracts which I believe carry a very strong message to all members of our Co-operative Marketing Association and will make an appeal to many who have not attached themselves to the very sound and basic ideas of co-operation:

"The purpose to co-operate with other men is a definite commitment to such a course in a man's own thinking. Its exercise will be established only in the world in which men live—not some fancied world we conjure, and will be carried through with conditions as they are, faulty in some respects as they seem to be.

"Co-operation in human relations is a principle which cannot be taken on to serve selfish ends, and dropped when some other plan will better serve selfish ends. In its very nature it carries elements of unselfishness, and does not lend itself to tricky conduct. It carries with it the implication that the co-operating bodies will each share in the benefits derived from co-operation. Men cannot hope to work under the name of co-operation, and one of the parties claim all the advantage. Co-operation may be, and is, effectively practised in all phases of life as a practical method of securing mutual advantage and profit. Yet the co-operative spirit which bids mountains be removed and cast into the sea, is an inward grace which grows in contemplation of the second of the two great Commandments: 'Thou shalt love thy neighbor as thyself.'

"Thou must be true thyself  
If thou thy truth wouldst teach;  
Thy heart must overflow  
If thou another heart wouldst reach."

"This is not a pious platitude, applicable only to women and children. It expresses an inescapable law for red-blooded men, and is applicable to all forms of human relationship.

"Four words of one syllable each are words which contain salvation for this country and for the whole world, and they are Faith, Hope, Love and Work. No government in this country today which has not faith in the people, hope in the future, love for its fellowmen, and which will not work, and work, and work, will ever bring this country through to better days and better times, or will ever bring Europe through, or the world through."

"May I commend these four one-syllable words, as being capable of great service for constructive co-operation between the men who are the working forces in the various corporations with which you are associated."

## WEDDING.

A quiet and interesting wedding was solemnized on Tuesday evening, September 28th, at 8 p.m. in the parsonage of the First Baptist Church, Calgary, when Miss Thelma Angeline Levagood, daughter of Mr. and Mrs. Oscar Levagood, of Didsbury, was united in marriage to Mr. Harry J. Steckley of this community. The ceremony was performed by the Rev. H. H. Bingham, pastor of the First Baptist Church, in the presence of a few intimate relatives. Mr. and Mrs. Steckley will reside near Didsbury.

Mr. and Mrs. A. G. Studer returned to Sylvan Lake last week. Mrs. Dyke, of Lacombe, will be at A. G. Studer's store on Friday and Saturday, October 8th and 9th, with a full line of ladies' hats, coats and dresses.

"is good tea" TEA

You've been intending to try Red Rose sometime. Why not now?

## Growth Of Wheat Pool Movement

The farmers of Western Canada in less than three years, have established the largest co-operative organization of its kind in the world. The Canadian Wheat Pool, with its three units in the provinces of Manitoba, Saskatchewan and Alberta, now has a total membership of 125,000 farmers, who control 13,230,000 of the 21,000,000 acres sown to wheat last year in the three prairie provinces. It is handling the sale of the greater part of the wheat production of Canada, and Canada already exports more wheat than any country in the world.

The first of the three wheat pools commenced business in the province of Alberta in October, 1923, and at the close of the first pool year on July 15, 1924, had handled 31,500,000 bushels of wheat shipped by its members.

Meanwhile Manitoba and Saskatchewan were organizing pools. In the fall of 1924, they had perfected provincial organizations and the three provinces then merged their selling strength into one giant marketing organization, known as "The Canadian Co-operative Wheat Producers, Limited." This agency is incorporated under a Federal charter, with very wide powers. Its function is to take delivery of the wheat from each of the respective provincial pools and to place it on the markets of the world in such a manner as to secure a price commensurate with the natural law of supply and demand. Each of the three provincial pools is responsible for gathering the wheat of its own members and placing it at the disposal of the central selling agency, which is controlled by a board of nine directors composed of the president, vice-president and one director of each provincial pool.

The largest proportion of the wheat is sold by the selling agency to importers and buyers in different countries of the world, for the agency has direct selling connections with every wheat importing country and its own representatives in 51 ports of the world. The funds which accrue from the sales are disbursed to the members of the three pools. This method of handling wheat provides a large volume through one agency and reduces the cost of operation to a minimum.

It is difficult, if not impossible, to estimate in dollars and cents the actual increase in the price of wheat attributable to the operations of the wheat pool, but the Pool, controlling as it does over 50 per cent of Canada's exportable surplus, has the opportunity of preventing large volumes of wheat being rushed on to the market and creating a glut which inevitably forces prices down. The strength of the Pool lies in its stabilizing power and in its facilities for selling in great quantities and in all countries.

This vast co-operative organization of farmers grew out of the experience of fixed prices for wheat established by the Canadian Government during the war, regulated by an official body known as the Wheat Board. Immediately after the war the farmers of Western Canada urged the Government to maintain the Wheat Board, but as it had been brought into being and had functioned under a War Measure Act, the machinery for its maintenance automatically passed out of existence with the signing of the Peace Treaty. The wheat producers of the Canadian West, learning that the Wheat Board could not continue, began to realize the necessity of an organization of their own to handle the marketing of their wheat in a way that would prevent a too wide fluctuation and secure a better stabilization of prices.

Through the Pool the wheat is handled at cost and therefore at a saving to the farmer. The Central Selling Agency with its direct connections is able to eliminate some of the handling charges between producers and consumer that are incidental under any other method of marketing. Moreover, the Pool relieves the farmer of the necessity of guessing the right time to sell his grain and assures him of the average price for the year on all wheat it sells. This orderly marketing avoids the disastrous effects of the flooding of the market in the fall which prevailed under the old system.

The Wheat Pool in Western Canada is a notable example of the advancement made by the farmers of this stage. Already it has shown the possibilities and advantages of co-operative marketing. Under the old system the farmer sold his wheat and took what the market offered. In the Pool system he delivers his grain when convenient and obtains the average price of the selling period, together with the saving in the handling costs. The Pool price to every member is the price at Fort William, less handling charges and freight charges. The latter, of course, vary, according to the length of the haul.

With the development of Canada's agricultural areas, only one-fifth of which are as yet under cultivation, the growth of the Canadian Wheat Pool may reach a magnitude never before conceived in co-operative marketing.

She—Why is your voice so sharp?  
He—Because I have been trying to get a word in edgewise for a whole week.

The man who tells you that he has nothing to say is usually capable of saying a good deal if he were so inclined.

## Children Cry for

Fletcher's  
CASTORIA

MOTHER:—Fletcher's Castoria is especially prepared to relieve Infants in arms and Children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

To avoid imitations, always look for the signature of *Wm. H. Fletcher*. Absolutely Harmless—No Opium. Physicians everywhere recommend it.

## Germany Now Thinks War Is Calamitous

International Strife Is Insanity on a Wholesale Scale

It was the fashion, only a few years ago, to glorify war and to create in the minds of young men an impression of its necessity. Germany was particularly eager to give its youth a strong martial spirit and to hold before them military ideals. If Stresemann speaks for his countrymen—and there is no reason to doubt that he does—the Germans have had a complete change of heart. The appalling sacrifices of the war have taught them, as they have taught other nations, that war is not glorious, but always calamitous. International warfare is insanity on the wholesale scale. It is of course, natural and right that young men should go to the defense of their country when it is threatened; it is noble to lay down one's life in a just patriotic cause. But if wars can be prevented as they can, if the proper state of mind is cultivated, it is the duty of every young person to help the movement along.

## RHEUMATIC SUFFERERS

May Obtain Relief by Enriching the Blood Through the Use of Dr. Williams' Pink Pills.

In the days of our grandfathers rheumatism was thought to be the unavoidable penalty of middle life and old age. Almost every elderly person had rheumatism, as well as many young people. It was thought that rheumatism was due to exposure to cold and dampness, and it was treated with liniments and hot applications which sometimes gave temporary relief but did not remove the trouble. In those days there were many rheumatic cripples. Now medical science understands that rheumatism is a disease of the blood and that with good red blood any man or woman of any age can defy rheumatism. There are now many elderly people who have never felt a twinge of rheumatism, because they have kept their blood in good condition, and there are many who have conquered it by building up their weak, watery blood. The blood-enriching qualities of Dr. Williams' Pink Pills is becoming every year more widely known and the more general use of these pills has robbed rheumatism of its terrors. At the first sign of thin, impure blood protect yourself against the ravages of disease by taking Dr. Williams' Pink Pills. They have helped thousands—If you give them a fair trial they will not disappoint you. Their value in the case of rheumatism is proved by the statement of Mr. Finlay Beaton, Blackstone, N.S., who says:—"I feel it a duty to tell you of the wonderful benefit I derived from the use of Dr. Williams' Pink Pills. I suffered untold agony from rheumatism and a run-down condition. The trouble left me incapable of work of any kind, and for a part of the time I was unable to move without the assistance of a cane. I took different medicine from doctors, and also other remedies that were recommended, but did not improve and had about given up hope of getting better when a friend advised me to try Dr. Williams' Pink Pills. I did this with the result that within four months I was as well a man as ever I had been. I can say that I was a complete wreck when I began using Dr. Williams' Pink Pills and that this medicine completely built up my health. This was some years ago, and I have no return of the trouble since. I give this statement hoping it will benefit others."

You can get these pills from any medicine dealer or by mail at 50c. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Aged Farmer Is Killed

Was Owner of 52 Quarter Sections in Saskatchewan

Death came instantaneously to Stanley Clark, wealthy aged farmer of the Froude district, when his automobile was struck by an engine. The late Mr. Clark was 70 years old, and was owner of 52 quarter-sections in Saskatchewan. The newspaper reports record the fact that the deceased had been a recluse since 1904, and "during all that time he had lived alone." It should also be written into the record, that the late Mr. Clark was a valued and respected member of the Wheat Pool, having signed a contract on the 29th of August, 1923, his number being 65-039.

## Many Join Wheat Pool

A total of 81,642½ acres of non-pool grain in Saskatchewan was won for orderly marketing by the operators and superintendents of Sask. Pool Elevators, Ltd. from September 12th to 20th—approximately 10,000 acres every twenty-four hours.

Keep Minard's Liniment in the house.

## Claimed By Ireland

British National Anthem and "Yankee Doodle" old Irish Tunes

"Yankee Doodle" is not American at all—it's Irish, according to Dr. Gratian Flood, an Irish authority on musical history. He asserts that "Yankee Doodle" was originally an Irish air known as "All the Way to Galway." "God Save the King," the British national anthem, Dr. Flood says, also is an old Irish tune which originated about 1595 and has been going strong ever since.

A Household Medicine.—They that are acquainted with the sterling properties of Dr. Thomas' Electric Oil in the treatment of many ailments would not be without it in the house. It is truly a household medicine and as it is effective in dealing with many ordinary complaints it is an inexpensive medicine. So, keep it at hand, as the call for it may come most unexpectedly.

## Nineteen Trans-Atlantic Cables

The nineteenth trans-Atlantic cable is now operating, and the twentieth will doubtless be needed, notwithstanding the advance in wireless communication across the seas—from the Boston Transcript.

The best known issue of "baby stamps" was begun Oct. 1, 1889, bearing the first baby portrait of King Alfonso XIII.

Do not allow worms to sap the vitality of your children. If not attended to, worms may work irreparable harm to the constitution of the infant. The little sufferers cannot voice their ailment, but there are many signs by which mothers are made aware that a dose of Miller's Worm Powders is necessary. These powders act quickly and will expel worms from the system without any inconvenience to the child.

Steel phonograph needles that will play from 400 to 600 records without changing, are now made by a Missouri concern.

## Storms On The Sun

Many Rapid Changes Taking Place says Chicago Professor

Violent storms are raging on the sun as well as on earth at present, says Professor E. B. Frost, director of Yerkes observatory of Chicago. Gigantic sunspots, visible to the naked eye through smoked glasses, give proof of the upheaval on the faraway planet he said.

Magnetic storms and northern lights may result from the distant storms, although no serious results will follow, the professor explained.

"The disturbance is in a solar latitude 23 degrees north, coming around the east side of the sun. Many photographs have been taken and very rapid changes are taking place," Professor Frost said.

Sunspots are not generally visible to the naked eye, he explained, unless grouped over vast areas.

## Doctors Use It.

They recommend it also for sprains, bruises and other ills.

## Building Auto Highways

For the development of local industries, as well as for military purposes, the Home Department plans the construction of more than 2,000 miles of automobile roads in Hokkaido, Tokio, Kyoto, Osaka and other prefectures.

Women in Ainu, Northern Japan, admire bearded faces so much that they tattoo their own to make them appear whiskered.

Genuine  
**ASPIRIN**

Proved safe by millions and prescribed by physicians for

Colds Headache Neuritis Lumbago  
Pain Neuralgia Toothache Rheumatism

DOES NOT AFFECT THE HEART

Safe

Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoacetic-acidester of Salicylicacid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

## TAKE STEPS TO STOP SMUGGLING ALONG BORDER

Ottawa.—Measures for the suppression of smuggling on the international border will be one of the chief considerations in the Canadian customs probe when it resumes shortly.

The order-in-council which enlarges the commission from one to three judges has been issued. It gives the commission the same powers which were possessed by the committee of the House of Commons which began the probe last February. It calls for the continuance and completion of the inquiry into smuggling in Canada and further charges the commission to find out whether the treaty of June 6, 1924 between Canada and the United States for the suppression of smuggling along the international border is being carried out according to the declared intent thereof and as to whether any amendment to the said treaty is necessary or desirable to ensure the suppression of smuggling.

The chairman of the commission is Sir Francis Landau, chief justice of the province of Quebec, who has already held a number of sittings. The additional judges are Chief Justice J. T. Brown, of the court of King's Bench, Saskatchewan, and of Judge William H. Wright, of the high court division, Ontario supreme court. It is probable that the new commissioners will meet Sir Francis Landau in the near future to draw up an itinerary of sittings to be held. Hon. N. W. Rowell will be counsel for the commission with R. L. Calder, K.C., who acted as counsel for the parliamentary committee which investigated the customs department during the last session.

The date of the resumption of the inquiry has not been announced but it is expected to get under way at an early date.

## May Practice In B.C.

**Humor That Hon. Arthur Meighen Will Move to Vancouver**

Toronto.—A staff special dispatch from Ottawa to the Globe says:

"Right, Hon. Arthur Meighen may become a resident of Vancouver, according to reliable information, and resume in the Pacific Coast city the practice of his profession. He has received important offers to join corporations both in Montreal and Toronto, but it is understood he is more disposed to go to the Coast. He has not yet reached a final decision on this matter.

"Sir George Perley is now the most likely person for temporary leader of the Conservatives during the coming session of Parliament."

## Appointment Pleases Labor

Washington.—Labor, the official publication of the Railroad Brotherhoods and other railroad employees, gives great prominence to the fact that locomotive engineer, Hon. Peter Heenan, has been chosen Minister of Labor in the new Canadian cabinet.

Mr. Heenan, who is a member of the Brotherhood of Locomotive Engineers, is hailed as a veteran trade unionist. It says Mr. Heenan's selection is gratifying to organized labor.

## Missionaries in China

London.—A despatch to The Daily Express from Shanghai says 500 missionaries are now isolated at Chengtu and are unable to escape from the city. The correspondent describes the situation at Chengtu as serious. The despatch adds Chengtu is the headquarters of numerous English and the United States missionary societies of all denominations.

## Damage To Rural Phones

Regina, Sask.—The heavy snow and windstorm in the southeast of Saskatchewan a few days ago caused damage estimated at \$29,000 to telephone lines and poles. For many miles in the southeast section every telephone pole was broken down and the wires snapped and broken, the summary of the damage showed.

During her 20 months in office, Gov. Miriam A. Ferguson, of Texas, granted clemency to 2,323 prisoners.

The wife of the prince of India wears a diamond in her nose instead of upon her left hand.

W. N. U. 1649

## Has Removed Civil Service From Politics

**Successful Move in Manitoba Spreading to Federal Field**

Winnipeg.—Efforts to remove the Civil Service from politics and to raise the standard of work have been successful in Manitoba, and now are meeting with success in the federal field, according to speakers at a session of the Citizens' Research Institute's convention here.

The reforms instituted, it was declared, are growing more and more popular with politicians, civil servants and the general public alike.

"The old idea of the old saying 'to the victor belongs the spoils' is giving way to the more honorable conception of 'the best shall serve the state,'" declared a paper by William Foran, secretary of the Canadian Civil Service Commission.

J. W. Fleming, Civil Service Commissioner for Manitoba, explained the re-organization and economies in the province. Manitoba civil servants now numbered 1,297 members. Re-organization had cut down the number from over 1,500 and efficiency had increased. Promotion, he said, was made from within the service in almost every instance.

Speaking from long Parliamentary experience, W. F. Cockshutt, Brantford, Ont., said the patronage system had been nothing but a "vote loser," and not a "vote catcher."

Major Hume Cronyn declared the tragedy of the Civil Service was that of poor pay, which he hoped to see remedied.

## Military Scheme In Europe Against Russia

**Baltic States, Britain and France Prepare, Say Bolsheviks**

Leningrad, Russia.—Poland, according to reports received in Soviet marine circles, here, soon will receive from France fifteen warships, comprising an armored cruiser, two torpedo boats and twelve submarines.

The Polish government, it is also asserted, has received from Great Britain, means for extending and improving the Polish port of Gdynia.

This it is declared, is part of the intensive military and naval preparations by Britain, France and the Baltic countries against Russia. Latvia, according to Russian naval authorities, will soon begin the construction of a huge marine base on the Courland coast, while the Finnish government is said to have assigned funds for the construction of dry docks which will accommodate vessels up to 10,000 tons in Finland.

Finland, also, the Bolsheviks assert, is completing a modern naval base at Biorke, the nearest Finnish port to Russia, which in 1918 and 1919 was the base of the British fleet operating against Russia.

## Hermit Left \$80,000

London.—Bayard Brown, the eccentric American millionaire, who lived as a hermit for thirty-five years in his yacht off Brightlingsea because of disappointment in a love affair in America, left property in England valued at \$80,000, the publication of his will shows. Mr. Brown was 72 years old when he died last April. It is estimated he gave away \$2,000,000 during his stay here.

## Will Attend Conference

St. John's, Nfld.—Prime Minister Monroe, Newfoundland, accompanied by Hon. A. B. Morine, was a passenger on the Furness liner Nova Scotia, which sailed for England to attend the Imperial conference. Hon. W. J. Higgins, Minister of Justice, has also left for England to represent Newfoundland in the Labrador boundary case before the Privy Council next month.

## Bandits Attack Motorists

Mexico City.—Bandits again have attacked motorists near Mexico City. The authorities say that no foreigners were involved. Two Mexican motorists were wounded by the bandits, who escaped. Troops are said to be pursuing the outlaws. They are under orders to exterminate the band.

## Accidents at Rodeo

Toronto.—Ray Miller, Cheadle, Alta., sustained a broken leg when kicked by a horse; Coyote Frank of Great Falls, Mont., suffered concussion of the brain when thrown, and Jack Cooper of Jasper Park, Alta., had his forehead split open by a kick from one of the ponies at the rodeo here.

## Addresses Research Conference

PROF. W. W. SWANSON

professor of political economy in the University of Saskatchewan, who delivered an address on "Tax Free Bonds" at the Citizens' Research Institute conference held in Winnipeg.

## Has Faith In Canada

**Lord Darling Has Unbounded Optimism Regarding Our Future**

Toronto.—They can no more stop this Dominion from becoming a great power in the world than they can dam the Horse Shoe Falls," declares Lord Darling, noted British jurist, here in an address to the Ontario Bar Association, in which he expressed unbounded optimism in Canada's future. "Any one who has been in Canada as I have cannot help being convinced that it has a wonderful future. I only wish it had been borne in on everyone as it has been borne in on me. And Canada is not the only Dominion in the Empire. The Empire will develop. There can be no doubt about it.

## Would Help Politicians

**Combining the Human Voice With Moving Pictures**

London.—Government leaders, having been successful in showing themselves to the people through the movies, may now combine with the movie feature the transmission of their voices to the public.

Following its recent widely displayed film showing cabinet members at work and at play, the Government has acquired a new invention which coordinates the human voice with the movies. Already Sir, William Joynson-Hicks, Home Secretary, has appeared in the movies with a speech given by means of the new device.

## Will Consider Steamship Contract

Ottawa.—While no official statement is available at present, it is understood that the Government will consider the situation in regard to the Canada-West Indies steamship service very shortly. The contract for the service expired some time ago, and it has since been carried on on a temporary basis.

## Bringing the School to the Scholars

A school on wheels—a school that suddenly appears one day and goes and comes again—like a magic castle.

It is doubtful if the news of an approaching circus, heralded by dazzling and wonderful advance posters has ever caused as much excitement as the announcement of the coming of the "Canadian Pacific School Train" into the hinterland of Northern Ontario. This unique experiment of bringing the school house to the scholar in this sparsely settled country is being carried on by the Provincial Government of Ontario in co-operation with the Canadian Pacific Railway with a view to providing educational facilities to the children of railway men and residents in the remote stations along the line in the Northern section of the Province between Chapleau and Sudbury. In all, around 400 children will be educated by this means.

## Building 'Plane For Trans-Atlantic Flight

**Giant Machine Is Now Under Construction in Italy**

Paris.—The Caproni aeroplane works now are constructing an aeroplane of 2,000 horse-power for a trans-Atlantic flight, according to Clifford Harmon, wealthy sportsman and president of the International Aviation League.

Mr. Harmon, with the Italian ace, Col. Falchi, flew to Paris from Milan on a tour of the posts of the aviation league. Speaking at a luncheon the league gave for Col. Falchi, Mr. Harmon said that he would back the colonel to make a trans-Atlantic flight. Mr. Harmon then told of having seen the giant Caproni being built.

"The Italian flyer who will pilot this 'plane has not been selected as yet," said Mr. Harmon. "But if Col. Falchi could I will back him to win and I will shoulder all the expenses of this attempt personally."

It is rumored that Col. Falchi, as well as the noted long distance flyer Commander De Plinedo, is being considered to make the flight.

## Miners Are Rescued

**Forty-three Michigan Miners Brought to Surface After Five Days' Imprisonment**

Ironwood, Mich.—Forty-three miners returned to their homes after a successful five days' battle to release them from their underground prison in the G. Pabst iron mine, where they were trapped last Friday.

Rescue of the miners from the depths of the mine was completed at 11:20 o'clock at night. At that hour every one of the imprisoned miners had been lifted to the surface through an adjoining shaft. Physicians decided a day's rest in complete seclusion and hospital comfort, was the best way to safeguard the health of the men. Upon this advice, all men were ordered to Grandview hospital.

The first man to come out of the mine shaft was greeted by the cheers of thousands, the ringing of bells and blowing of whistles.

Police protected the rescued miners as they were brought up or walked out of the shaft one by one.

They went immediately to the mine rescue car, where they were examined.

## Speeding Up Airplane Flights

London.—Great Britain at present does not hold a single record in aviation. It is expected, however, that three aeroplanes now being built secretly by order of the air ministry, will develop a speed of between four and a half and five miles a minute. It is hoped that with these craft Great Britain will obtain a new world's record for speed.

## 35 States Sign

Geneva.—The secretariat of the League of Nations announced that 35 states have signed the reply which will be sent to Washington on acceptance of the United States reservations to the World Court.

## VALEDICTORY OF BARON BYNG ON LEAVING CANADA

Quebec.—"I return to England imbued with the ideals of Canadianism. I have absorbed them during five happy years in Canada, and it is my purpose to do my very best to maintain them. The ideals of Canada have been beneficial to this country and they will continue to be so, but it is not only Canada that they will benefit, for they will exercise an influence for good to the whole league of English speaking nations."

This was the valedictory to Canada of Lord Byng of Viny, the soldier and administrator who for the past five years has presided over the destinies of the Dominion. His Excellency's term as governor-general begun on August 11, 1921, has ended, and on Sept. 20, he and his gracious consort, the Lady Byng sailed down the St. Lawrence River on board the Empress of France, with their faces turned towards England.

Prior to his departure, His Excellency received a representative of the Canadian Press in the library of Spencerwood the residence of Lieutenant Governor N. Perceval, of Quebec. It was not an interview so much as an informal chat, in which His Excellency gave expression again and again to his inflexible faith in the destiny of Canada and in the great part this country will play in the future, not only of the British Empire, but of the world.

## Military Occupation Of Germany Is Hindrance

**Described as Humiliating Now That Germany Is Member of League**

Berlin.—The German papers of every political shade view the German occupation incident in which a French officer killed one German and wounded two others, as proof that the military occupation system constitutes the greatest hindrance to a French-German understanding. As long as foreign troops are on German soil, they say, brawls and friction are likely to occur, and one effect might be to wreck the entire work of conciliation started by Messrs. Briand and Stresemann in their conversations at Geneva and Thely.

Continuation of the occupation is felt to be particularly humiliating now that Germany is a partner with her former enemies in the League of Nations. The press is especially emphatic in demanding that measures might be adopted corresponding to the spirit of the Locarno treaties.

## British Trade Unhindered

**Military Intervention in China not Warranted Says Premier Baldwin**

London.—Premier Baldwin told the House of Commons that British steamers are plying unhindered between Canton and Hong-Kong and that there has been no interference with British trade at Hankow despite recent agitation.

The Prime Minister said that reinforcements are now being sent to China to render the naval forces in the Far East sufficient to protect British subjects and interests. Military intervention is not warranted, Premier Baldwin said, and no army reinforcements have been dispatched.

## Channel Swimmer Drowned

Boulogne.—The first tragedy due to ambition to swim the English Channel was recorded here when the body of a young Spaniard was washed ashore.

The body was identified as that of Luis Rodriguez Delara, who is said to have been a member of a prominent Madrid family.

Delara started secretly and without an escort in an attempt to swim the channel from France to England a few days ago.

## To Try Another Swimming Stunt

Southend-On-Sea, Essex, Eng.—Norman Leslie Dereham, the Englishman who, on September 17, swam the English Channel, says he probably will attempt to swim from Mull of Kintyre, Scotland, to Ireland. The distance between Scotland and Ireland is only about 13 miles but with the tides it is probably Dereham will have to cover many miles to get across.

## TOWN COUNCIL.

A meeting of the Didsbury Town Council was held on Monday night in the school building, those present including Mayor Chambers, Councillors Berscht, Liesemer, Tighe, Reiber, Guy and Edwards and Secretary Austin.

The business brought before the meeting was of a rather varied nature.

Arrangements for pooling the pools and sloughing the sloughs, it was thought with the co-operation of the C.P.R. might be made so that this local source of cars might be persuaded to adopt one common course or ditch.

The pools of water near the power house, and the pools of water near the mill, combined with the pools at various places on Wall Street, altogether present a very wet problem indeed, and it was decided that as the matter affected the railway company also, a deputation wait upon the latter and endeavor to seek its assistance and co-operation.

Other matters discussed included the electric light service in the early morning, and it was decided to arrange for the service to commence at five o'clock during the week, and 6.30 Sunday.

Putting the roads into shape again following the recent excessive moisture was apparently another tough problem. Teams are difficult to get and on this score considerable delay has been created. Alex. Guy, however, promised to devote a few hours the next day, and given a little dry weather the matter may possibly solve itself.

Councillor Tighe reported that he had examined the equipment at the fire hall, and with the exception of a cracked handle which he found to be intact everything was now in fair shape.

## ROSEBUD FLOUR MILLS EXTENSION

Will Open Grocereria and Bakery in Connection

The Rosebud Flour Mill is a local industry the progress of which has been watched with interest, and it is always with considerable pleasure that one learns of improvements effected to cope with increased business.

Considerable repair work has for some time been under way and this now is nearing completion.

The elevator has been rearranged to give increased speed in unloading. The new dump scale will weigh the heavy truck loads. The approach to the elevator has been lowered so that no extra pull is necessary at that point. The storing capacity for chopping has been increased fifty per cent, with the addition of three new bins and several important improvements have been made in the mill also.

Another new feature in connection with the mill is the Rosebud Grocereria and Bakery, situated near the Liesemer mill, opposite the C. P. R. depot. This is calculated to bring increased business, as many of the farmers find it difficult to secure help, and consequently will probably find it more congenial and profitable to get their bread in exchange for either grain or cash. Connected with the grocereria will also be a flour and feed department, a special feature of which will be poultry supplies.

## FUNERAL OF M. PETERSON

A young harvester named Mathew Peterson was admitted into the General Hospital at Calgary last week and died after an illness lasting but one day. According to an opinion ex-

pressed after an autopsy death was due to sleeping sickness. The young fellow apparently when entering the hospital was in a somewhat dazed condition, and information regarding his relatives was difficult to obtain. The hospital authorities, however, understood from him that he had come from Spokane, Wash., and that his father lived in California. Eventually, however, it was learned that Mr. Peterson lived at Ranfurly, Alta., and he was there communicated with.

The funeral took place in Didsbury on Saturday last, service being held at Mr. Durrer's undertaking parlors, the minister officiating being Rev. Roppel of the Evangelical Church.

The pall-bearers comprised C. Reed, W. Webb, C. Phillips, R. Road, Mr. Traub and Mr. Stouffer.

The interment took place at the Didsbury cemetery, where the young fellow's grandparents were buried some years ago.

The deceased was in his nineteenth year and previous to his death had been working for a farmer at Drumheller. He returned to Calgary to seek further employment. He was known to many in that city and among his friends had always been most popular. His father, C. Peterson, who was present at the funeral, is one of the most successful farmers at Ranfurly, and some little time ago made his son a gift of a farm in that district. The latter, however, left with the idea of getting further experience in other districts and it is conjectured was about to return home when his illness overtook him.

## BUY A BOX.

One a Day Keeps the Doctor Away, Is Rhyme Founded on Fact.

Various rhymes that tell of the merits of the apple as a factor in the preservation of health are well founded on fact.

It was not by mere chance that years ago the school boy sang: "An apple a day keeps the doctor away."

Ingredients of an apple have been separated by the analytical chemist and he shows the component parts as follows:

Water 82.5 per cent.; carbohydrates, 12.5 per cent.; proteins .4 per cent.; acids 1 per cent., and cellulose 2.7 per cent.

Apples are chiefly important from a dietetic standpoint because they furnish mineral salts and certain organic acids to the system. Their nutritive value lies in the carbohydrates they contain, and they are of undoubted medical value when taken before or after meals.

It is for those reasons that doctors recommend free use of apples when they are in a state of maturity.

"An apple or more at 10 and 4," indicates the in-between meal value of the apple.

Get a box at any of our local stores. A. G. Studer, Cressman Bros., and the Hub Grocery all handle them at very reasonable prices.

## Here and There

It is anticipated that the wool clip in Southern Alberta will reach the 2,000,000 pound mark this year. Of this a million and a quarter pounds will be handled through the Canadian Co-operative Wool Growers' Association. The fleeces this year are stated to be unusually large.

Canada, in proportion to population, has more golf courses than the United States. With its 464 courses there is no need for the summer tourists to miss their game. Ontario leads with 160; Quebec, 70; Alberta, 60; Saskatchewan, 53; Manitoba, 51; British Columbia, 39; Nova Scotia, 17; New Brunswick, 11; Prince Edward Island, 3.

The recent appointment of the Rt. Hon. Reginald McKenna, former Chancellor of the Exchequer of the British Government, and E. R. Peacock, a director of the famous Bank of Baring Brothers, to the directorate of the Canadian Pacific Railway, has caused very favorable comment in Canadian and English financial circles.

The annual across-Canada educational tour carried out under the auspices of the Canadian Pacific Railway, terminated recently at Toronto and Professor Sinclair Laird, Dean of Macdonald College, who was in charge of the party of over 100 teachers, students and professional men, stated that their entire trip had been an unqualified success.

Over 3,000 tickets were sold recently for the annual picnic and outing of the Angus Shops in Montreal to Ste. Rose, which proved the most successful ever held. Prominent officials who took part in the day's outing were: Mr. Grant Hall, vice-president of the Canadian Pacific Railway; John Burns, works manager at the Angus shops; J. D. Muir, assistant works manager, and W. Peterson, shop engineer.

Promptness in First Aid handling by C.P.R. in the case of a man whose leg was completely severed while he was at work unloading the S.S. "Montroyal" at Quebec recently undoubtedly saved the man's life, according to the surgeon of the "Montroyal." The First Aid rendered by Sergeant Murphy and Constable Kelly, of the Canadian Pacific Railway, was reported to have been the means of saving the injured man's life.

A Canadian owned Ayrshire cow, "Nellie Osborne of Elmshade the 16th," owned by W. C. Wyllie, of Howick, has displaced the American owned Ayrshire for the world's record milk and butter production for this breed. In a 306-day official test she produced 21,241 pounds of milk and 909 pounds of butterfat. The previous record production for the same number of days was 18,266 pounds of milk and 739 of butterfat.

Immigration to Canada for the first two months of the fiscal year amounted to 36,113, according to an official statement issued by the Department of Immigration and Colonization. This is an increase of 11,791 over the same two months a year ago. Immigration for May, which is the latest month included in the statement, was 18,620 this year, as compared with 13,338 last year. British immigration has increased from 6,559 in May, 1925, to 7,986 in May, 1926. For the same months immigration from the United States has increased from 1,757 to 2,063 and from other countries 5,022 to 8,571.

Announcement was made from the headquarters of the Canadian Pacific Railway at Montreal recently of the retirement of W. B. Lanigan, general freight traffic manager from the services of the Company which he has served for forty-two continuous years. Mr. Lanigan is regarded as one of the outstanding authorities on rail rates, and, although relieved from active official duties at his own request, he will be retained in the company's service in order that his special knowledge and long experience in traffic matters may be available in connection with enquiries before the Board of Railway Commissioners.

## Local and General.

The tremendous losses by fire which are sustained year by year makes it increasingly important to observe every precaution. There will always be, of course, the careless person who observes as much care in depositing ashes as the fool does with the loaded gun. Taken as a whole, however, the numerous warnings are having some effect, and it is to be hoped that in the course of time losses by fire will be greatly reduced as a result of the methods now being pursued.

Meanwhile, however, it would be as well to give the "once-over" around the premises, whether store or residence, remove boxes and rubbish, in fact anything of a combustible nature. Stoves, too, should be carefully examined, pipes cleaned and where necessary replaced with new. Whatever precaution is taken it is worth the effort.

Equally, of course, the responsibility lies with the powers that be to see that fire fighting apparatus is always kept in good shape. The demand for its services may come at any moment, and preparations taken beforehand are much more to the point than exclamations made afterwards.

Two weeks ago, with snow covering the whole country, it was not perhaps surprising to have the belief that winter had come given expression to so freely. One was led to expect it by the forecasts of our weather prophets, and conditions being so general lent weight to the prophecy. Many old-timers, however, will tell us that the longer they remain here the less they know about the weather. Which is equivalent to confessing that with age comes wisdom.

According to a return of the last

general election held in Alberta, just issued, the final results in the Didsbury constituency are as follows: A. B. Claypool, 2,292; D. MacDonald, Lib., 895; S. P. Williams, Con., 819.

In the constituency of Olds, Nelson S. Smith, U.F.A., secured 1,613; N. E. Coe, Lib., 708; L. H. Walkley, Con., 569.

The U.F.A. would seem to be well entrenched.

**Millinery Sale.**—Mrs. Peterson will conduct a sale of millinery during the week ending Saturday, the 9th inst. All trimmed and felt hats will be disposed of at half price.

Miss Jessie Miller, Miss Beth Gerlitz, George Miller and C. Gerlitz of Calgary were week-end visitors at Chris. Mack's place.

Being the second Sunday of the month the services as usual will be conducted in the English language at the Wesicott Lutheran Church, on Sunday, October 10th, beginning at 10.30. A cordial invitation is extended.

John F. Miller, eyesight specialist, of 404 Underwood Block, Calgary, will be at the Rosebud Hotel on Friday, October 15th.

Mrs. William Chamberlin, Mrs. R. Reiber, Mrs. D. Lamont, Mrs. R. P. Fulton, and Mrs. Deadrick are the delegates from Didsbury union to the provincial convention of the W.C.T.U. being held in Red Deer this week.

The W.C.T.U. will meet at the home of Mrs. J. V. Berscht on Wednesday afternoon, October 13, at three o'clock sharp. A short report of the provincial convention will be on the program.

Didsbury Lodge, I.O.O.F., are arranging a social evening for Friday, October 15th, to which all Oddfellows and Rebekahs, with their friends, are invited. Cards music and dancing. Keep the date open and you'll have a good time.

Mrs. A. Mjolness was a week-end visitor at Calgary with friends.

Miss Laura Smith of the local post-office was visiting friends in Calgary over the week-end.

The I. O. D. E. will entertain at an Halloween tea at the home of Mrs. Kendrick on Friday, October 22nd. Silver collection. Everyone invited.

The I. O. D. E. tea given at the home of Mrs. S. G. Watt on Friday, September 22nd, was a most enjoyable and successful event. A large number were present.

By Royal proclamation this week is being generally observed throughout the Dominion as Fire Prevention Week. Lectures on fire preventive subjects will be given in the schools, public meetings will be held in many of the larger cities, towns and villages, and the owners and occupants of property everywhere throughout Canada will be counselled to give special attention to the removal of fire hazards from their premises.

## No Wonder Canadians are Handsome.

Canadian men and women owe their good looks and beauty to their country, says Paul Chung Fann, of Shanghai, alias Paul C. Fann, of Montreal, who believes that environment is the chief factor in the evolution of the human species. On the whole, this young Chinese philosopher thinks, Canadians considered collectively, are much better than the Chinese because of their association with more beautiful surroundings.

"This is a very old theory," said Mr. Fann in a recent interview, "and a very well-founded one." He pointed out the fact that the inhabitants of the vast barren areas of China were an ugly people, while a native of the Province of Kiangsu, the most fertile and beautiful of Chinese provinces, could be recognized anywhere for their great beauty.

"Make your country beautiful, and the rest will take care of itself,"—that is Mr. Fann's recipe for good looks. Canadians, he says, have carried out this theory unconsciously with the result that their country has not only great natural beauty, but many fine cities, and thousands of acres of beautiful farm land. The Canadian Pacific Railway with which Mr. Fann has been associated for the past two and a half years has played a great part in beautifying Canada he

says, as well as assisting in the country's development in many other ways.

Paul C. Fann, as he is known in Montreal is a graduate of Chinese universities, the son of a Mandarin, and just 26 years old. For two and a half years, under an arrangement between the Governments of China and Canada, he has been making a study of the Canadian Pacific Railway System with the idea of acquiring practical knowledge that he hopes to apply to the railroad problems of his own country. He and several other young Chinese students arrived in Montreal in December 1923, and since his stay in Montreal, Mr. Fann has been employed in the Angus shops and various departments of the Railway in Windsor Street Station, Montreal. He has also been a student at McGill university, where he took an M.Sc. degree, and is at present working for the degree of M.A., which he hopes to receive in the Fall, before returning to China in October. Mr. Fann leaves the Canadian Pacific Railway Company at the end of this month and will travel through Canada during the summer. The building in the photograph is the Windsor Street Station, Montreal, where Mr. Fann received most of his Canadian Pacific railway training.

### WORLD HAPPENINGS BRIEFLY TOLD

Houses built of Canadian lumber after a Canadian pattern are to be given a trial in England after several years of agitation to this end. The London county council is the first to try building Canadian houses here.

The New York World says negotiations for the sale of the Sun and Telegram for approximately \$5,000,000 by the Frank O. Munsey estate to a group of men now publishing the papers are about to be closed. The group of purchasers is said to include editors and executives of the two papers.

### Relieves Catarrh Almost Instantly!

Nasal catarrh clogged nostrils, obstinate and annoying head colds, dull headaches, buzzing head noises—no matter how bad—now yield almost instantly to the amazing power of **Georo Wormwood Balm**. A delightfully clean and pleasant home treatment, positively harmless to the most delicate tissues, but powerful enough to break up congestion, allay inflammation and kill germs within a few minutes. Your throat and nasal passages are cleaned like magic—you breathe freely and easily as nature intended—and your dull old head feels clear and clean.

To prove that this is absolutely true and to quickly introduce the treatment to thousands of catarrh sufferers who need it—all druggists are now authorized to supply **Georo Wormwood Balm** on a strict guarantee of swift and full satisfaction or money back! No matter how many treatments you have used without success—if you really want to be freed from catarrh, don't miss this opportunity to try **Georo Wormwood Balm** without slightest risk of cost unless pleased with results. A 6c box will last for weeks.

An instrument so sensitive that it records the messages sent to the brain of a frog when the creature's skin is gently pinched, has been invented by an English scientist.

### Watch Your Daughter!

Stratford, Ont.—"Dr. Pierce's Favorite Prescription is the best tonic and nerve tonic that can be given to a young girl while growing into womanhood. When I got to the age where I began to develop, I was very backward. I became so nervous I could not sit still. I was not able to sleep, had severe pains thru my back and head. I was very tired, weak and miserable. The lady where I was staying got me a bottle of Dr. Pierce's Favorite Prescription, and by the time I had taken it I was feeling fine, my nerves were good, I got strong, began to gain in weight and developed into womanhood naturally and never had any more trouble."—Mrs. Stanley Tozer, 183 Railway Ave.

Any drug store, in tablets or liquid, or send 10c to Dr. Pierce's Laboratory in Bridgeburg, Ont., for trial pkg.

### The Commanding Position Of Our Agriculture

By C. W. Peterson

The average person readily gives an intellectual assent to the statement that agriculture is our basic industry and the "backbone of the nation," but usually without any adequate conception of the fundamental facts of the case. It is a mere figure of speech. It is, therefore, well to consider briefly to what extent agriculture has been responsible for Canada's material progress. Forty-one per cent of our net production in the last census year was agricultural; thirty-three per cent was manufacturing; and our forests, mines, fisheries, construction, etc., account for the remaining twenty-six per cent. The eight billions of total agricultural capital in Canada represents 38 per cent of her total available wealth. Urban real estate accounts for 26 per cent, our railway plants, 10 per cent, forests, 5½ per cent, mines, 2½ per cent, and manufacturing equipment, 2½ per cent.

It will thus be clear that Canada's agriculture looms up as the largest single factor in her economic life, and the farmers as the largest group of domestic consumers, consequently exercising a commanding influence in the general business conditions of the country. One-third of all revenue freight carried by our railways originated on the farm and another third at least, was represented in carrying commodities of all kinds back to the farm and the agricultural raw material to and fro. The Canadian farm not alone feeds the nation, but exports on such a scale that credits are available to balance our international obligations and create a favorable trade balance.

Besides the millions of farm workers directly engaged in producing, there are other millions earning their living by performing work connected with supplying the implements, tools, shoes, clothing etc., for the farmer, with the manufacture of raw material originating on the farm and the distribution and transportation of such commodities. Who is bold enough to attempt correctly to estimate the economic importance of agriculture in a country like Canada? It is perhaps well within the mark to assert that at least 80 per cent of Canada's total population, in every walk of life, depend absolutely on her agriculture, directly or indirectly.

These are imposing figures and should lead thinking men to speculate on the possible performance of Canadian agriculture were we in the happy position where more than a mere fringe of our agricultural area was on a producing basis. If, for instance, we were producing on even one half of our arable lands, instead of only one sixth, granting a fairly balanced population, all our present economic problems would vanish over night. The time is ripe for brushing such a situation about. We have the undeveloped natural resources, the markets are there, we only need the manpower to complete the circle. And that is purely a matter of intelligent, business organization.

To have the children sound and healthy is the first care of a mother. They cannot be healthy if troubled with worms. Use **Mother Graves' Worm Expeller**.

First farmer—"That rainmaker is going to charge us \$1,000 for that shower yesterday."

Second Farmer—"H'm. I suppose that's what they mean by saving up for a rainy day."

### For COLIC AND CRAMPS PAINS IN THE STOMACH There's Nothing Equals

It has been in use for over 80 years; its action is pleasant, rapid, reliable and effectual, and relief comes promptly. "Don't accept a substitute." The genuine is put up only by The T. Millburn Co., Limited, Toronto, Ont.

### Well-Known Home Builder Quickly Restored To Health

Victim of Nervous Indigestion, Loss of Sleep and Intolerable Pain, Father of 8 Children, Finds Long-Sought Relief. Strength Restored. Praises Tanlac.

Joseph A. Brunet, a well-known Montreal building contractor, 2085 Boyer Street, says: "The brawn, muscle and splendid health of the strongest man will break under the strain of modern living."

"I was suffering untold agonies when I began taking Tanlac. My strength had vanished. I couldn't work efficiently, I couldn't enjoy life as other men did. I had lost weight and was wracked by knife-like pains."

"I was completely discouraged when Tanlac was recommended to me and I took it. I recommend it to anyone who is ailing."

"This tonic worked wonders with me. Quickly my old strength returned. I began to have a great appetite and ate everything without a sign of pain. Once more I knew what it was to have a good night's sleep. Tanlac certainly put me on my feet, made me stronger and gave me better health than I have had in years."

Tanlac usually banishes pain. Conquers ailments and builds up strength in famished bodies. It relieves the system of poison caused by constipation

and sluggish liver. It is nature's own remedy made from roots, barks and herbs according to the famous Tanlac formula.

Banish sickness from your life and enjoy the benefits of golden health. Begin taking Tanlac. The first bottle usually brings results that will surprise you. Ask your druggist for Tanlac—today!

### Why Some Candy Doesn't Sell

Quality candy often finds a slow sale simply because it looks "cheap." Inferior wraps discourage sales. But the Appleford wraps win new customers.

The richness of butter scotch shows through the transparency of Appleford wraps. Kisses are more tempting in Appleford's durable twisting tissue. Caramels look more attractive in the Appleford's neat-folding wraps. The slight extra cost is a good investment.

### SUNDAY SCHOOL LESSON OCTOBER 10.

#### THE REPORTS OF THE SPIES

Golden Text: We are well able to overcome it. Numbers, 13:30.  
Lesson: Numbers 13:1 to 14:45.  
Devotional Reading: Psalm 95 1-7.

#### Explanations and Comments

Twelve Spies Sent to Canaan; verse 1-20.—At last an encampment was made in the Wilderness of Paran at Kadesh-barnea, near the border of the Promised Land. Then Moses sent twelve spies over the border to ascertain the nature of the land, whether good or bad, whether wooded or not, whether strong or weak, and also facts about how they lived, whether in cities, camps or strongholds. He also directed them to bring back specimens of the fruit they found in the land.

"The land was ready for the people, but were the people ready for the land? The report which Caleb and his companions was to bring was to decide, not a question of geography, but a question of philosophy. It was to test the present capacity of the people of God, to determine whether the heart of Israel was ripe for its inheritance." (Dr. George Matheson).

"What we do in the crisis always depends upon whether we see difficulties in the light of God, or God in the shadow of the difficulties." (Dr. G. Campbell Morgan.)

Externally or internally, it is Good.—When applied externally by brisk rubbing, Dr. Thomas' Electric Oil opens the pores and penetrates the tissue, touching the seat of the trouble and immediately affording relief. Administered internally, it will still the irritation in the throat which induces coughing and will relieve affections of the bronchial tubes and respiratory organs. Try it and be convinced.

Her: Ah, darling, as we sit together under the spreading branches of this noble tree, I declare on my honor that you are the only girl I ever loved.

She: You always say such appropriate things, Paul. This is a chestnut tree.—TREES, London.

For all pains—Minard's Liniment.

He (musingly)—I wish I had money enough to get married.

She (coolly)—What would you do?

He—I'd buy myself an automobile.

The population of India is three times that of the United States.

Feet sore?—Minard's Liniment.

### Spoiling Precious Stones

As pearls consist of carbonate of lime, vinegar and other acids will eat away the polished surface in a short time. Hot water is fatal to an opal, destroying its fire and sometimes causing it to crack. Soap is a deadly enemy of the turquoise. If a turquoise ring is kept on the hand while washing, in a short time the blue stones will turn to a dingy green.

**Will Not Reduce Pensions**  
New Regulation Extends the Principle of the Irreducible Minimum  
No further reduction will be made in the pensions of less than 50 per cent, providing that during treatment the presence of active disease was definitely established. This announcement was made recently by the Dominion headquarters of the Tubercular Veterans' Association, following negotiations with the board of pension commissioners. Last spring the board conceded the justice of an irreducible minimum pension of 50 per cent, for tubercular veterans in receipt of that amount or over. The new regulation extends the principle of the irreducible minimum rate of pension to those in receipt of less than 50 per cent.

**Mothers Treat Colds The New "Direct" Way**

No Longer Necessary to "Dose" Children With Internal Medicines to Break Colds.

Children's digestions are easily upset by too much "dosing." Vicks VapoRub being externally applied, does not upset little stomachs.

At the first sign of croup, sore throat, or any other cold trouble, apply Vicks freely. There is nothing to swallow—you just "rub it on."

**VICKS VAPORUB**  
Over 21 Million Jars Used Yearly

"You will be something of a sensation, tonight, my dear!" the older woman exclaimed, when Joanna had walked across the room, and had whirled and stood still for her inspection. Joanna was much too happy to reply.

Yvonne's appearance among her guests was the signal for dancing to begin—also for the breaking down of all barriers built by formalities. Women who had gathered in stiff little groups to discuss other women or the escapades of other women were swept away, to their first dance and their first drink and the first round of their preferred flirtations. The big drawing room had been made into a dancing room, in the winter garden the only lights were flickering lanterns hidden among the foliage. Great palms made screens across corners of the drawing and sitting rooms, and in the hallways. "Yvonne," said Mrs. Brownley-Smith, "knows that two people never have to fumble for conversation when they're hidden behind palms."

(To be continued)

**Harvesters From Ireland**

Sir James Craig Has Visions of Countrymen Coming to Canada to Garner Western Crop

Visions of Irishmen coming to Canada to help garner the grain crop of Western Canada and returning to their native land at the end of the season, was conjured by Sir James Craig, Prime Minister of Ulster, in an interview at Winnipeg.

Sir James declared that he was not in favor of state assistance in making such an arrangement possible.

"I intend to discuss with those fully acquainted with the subject whether it would be possible to place the matter upon a sound economic basis whereby immigrants would come in as free men, working their passages right through to the scene of operations and returning home with sufficient wages in their pockets to justify their adventure into this magnificent part of the Empire," Sir James explained.

Sir James confessed himself deeply impressed with agricultural methods in Canada, and the extent to which it is being carried on. There were small prospects, however, of intensive movement of immigrants from Ireland at the present time, he thought.

**THOUSANDS OF MOTHERS USE NO OTHER MEDICINE**

**Baby's Own Tablets Are the Ideal Remedy for Babies and Young Children**

Canadian mothers are noted for the care they give their little ones—the health of the baby is most jealously guarded and the mother is always on the lookout for a remedy which is efficient and at the same time absolutely safe. Thousands of mothers have found such a remedy in Baby's Own Tablets and many of them use nothing else for the ailments of their little ones. Among them is Mrs. Howard King, of Truro, N.S., who says:—"I can strongly recommend Baby's Own Tablets to mothers of young children as I know of nothing to equal them for little ones."

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

**Little Helps For This Week**

A merry heart maketh a cheerful countenance.—Prov. xv. 13.

Why not take life with cheerful trust With faith in the strength of weakness?

The slenderest daisy rears its head With courage and with meekness. A sunny face Hath holy grace To woo the sun forever. —Mary Mapes Dodge.

It is part of my religion to look well after the cheerfulness of life, and let the dismal shift for themselves, believing with good Sir Thomas More that it is wise to be "Merrile in God."—Louisa May Alcott.

I do not know any way so sure of making others happy as of being so one's self.—Sir Arthur Helps.

If an employee doesn't know his place he need not expect to keep it long.

Holloway's Corn Remover takes the corn out by the roots. Try it and prove it.

Back pay is usually slow about coming to the front.

Minard's Liniment for chapped hands.

**Dressing Children no Problem Now!**

It doesn't cost much to keep the youngsters dressed in all the pretty colors of the season! Buy less, sew less—and Diamond dye their dresses, waists, blouses, etc.

Home dyeing is easy. It's lots of fun. The results are perfect, when you use real dye. Right over other colors, any kind of material, in an hour's time! Keep your own clothes in style, too, by making them the newest shades. Also, the drapes and hangings in your home.

**FREE** for the asking, at any drug-store: the Diamond Dye Encyclopedia, full of suggestions, with easy directions. See actual piece-goods color samples. Or write for free illustrated book Color Craft to **DIAMOND DYES**, Dept. N10, Windsor, Ontario.

**Diamond Dyes**

Make it NEW for 15 cts!

In Dry Canada

**WRIGLEYS**

still quenches thirst, cools the parched throat and by its delightful flavor and refreshment restores the joy of life. CG36

**After Every Meal**

**Growth of Wheat Pool Movement**

"Less than three years ago," says The Kansas Farmer (Salina, Kan.), "The Canadian wheat pooling movement was started. Today more than half the production of Canadian wheat farms is marketed in an orderly way through a co-operative organization that is rapidly developing the power, the means, and the knowledge, necessary to secure profitable prices to farmers."

**The Man With Asthma.**—Almost longs for death to end his suffering. He sees ahead only years of endless torment with intervals of rest which are themselves fraught with never ceasing fear of renewed attacks. Let him turn to Dr. J. D. Kellogg's Asthma Remedy and know what complete relief it can give. Let him but use it faithfully and he will find his asthma a thing of the past.

Accused (just acquitted, to counsel): Thanks awfully, old man. What on earth should I have done without you?

Counsel: Oh, about five years.—

**FACE WOULD SMART TERRIBLY**

Hard, Red Pimples Broke Out. Cuticura Heals.

"My trouble was caused by eating apples. My face began to break out with pimples that were hard and red at first and then festered and scaled over. They spread all over my face making it very sore. After the scales came off my face would burn and smart terribly."

"I used everything I could think of without any benefit. A friend recommended Cuticura Soap and Ointment so I purchased some, and in four weeks I was healed, after using two cakes of Soap and one box of Ointment." (Signed) Mrs. Edith Brown, 37 Portney Pl., Barre, Vt., Sept. 24, 1925.

Rely on Cuticura Soap, Ointment and Talcum to keep your skin clear.

Sample Each Free by Mail. Address Canadian Depot: "Shimoda, Ltd., Montreal." Price, Soap 25c, Ointment 25c and 50c. Talcum 25c. Cuticura Shaving Stick 25c.

CHAPTER XVI  
Joanna's Debut

It is only in the great capitals of the world that one may witness, or participate in, a gathering such as Yvonne Coutant delighted occasionally to preside over in her town house off the Avenue. They are not uncommon in Paris where a Prince of India may at any time transform a miniature palace in the Bois into an exotic fairyland for a wild, barbaric fete. They were brilliant punctuations in the Bohemian calendar of old Vienna, and in London, occasionally, a rampant beauty, perhaps a mannequin newly married to a duke, or a young duchess divorced from one, will celebrate by turning one night into enough extravagance to keep Mayfair gossiping for a month.

In America they are rarely accomplished. The demimondaine of Paris and the diplomat from London are not accustomed to ignoring the barrier between them when occasion arises. It is an extraordinary hostess, in America, who can successfully bring together all grades of society, not rich and poor, so much, as the good and the not so good.

Yvonne Coutant was one of these. She had no scruples when she opened her house, as to who came into it. She demanded only beauty, external grace, and a willingness to be an appropriate picture for the shining, golden frame she provided.

"One simply cannot afford not to be in on one of Yvonne's affairs," Mrs. Brownley-Smith, of the Polo crowd, repeatedly said. "One's husband is sure to be there, and so is his favorite

of the moment. I always go in order to discover who Tom's loving now. It's the only way I have of checking up on the fluctuations of his taste."

Yvonne's own latest former husband, Alfred Coutant, the novelist, never missed her entertainments. "I get at least four chapters from every one of them," he would explain. "She's awfully good to let me come—sort of jolly like, you know."

So it was that an interesting company moved about among the roses and lilies and daffodils that filled every corner of the spacious house with fragrant baskets of thick, flaming carnations relieving the paleness of the throats of women. And so it was that Joanna stood, arms outstretched that she might realize the line and symmetry of them, before the long mirror in her dressing room, upstairs. The slim body of her was vibrant with memories of the day and eagerness for the night. In her eyes were all the ecstasies. Strawn around her were the things from the shops—more gorgeous things from more gorgeous shops than she, alone, ever could have discovered. It was from them she had made her choice—or Yvonne had made it for her—and she stood, before the glass, a soft, mellow vision of lace and chiffons fashioned by deft fingers and cunning brains to emphasize that beauty of girlhood that only a sculptor could display more alluringly or frankly. On the dressing table before her were spread the souvenirs of an hour with Yvonne in the great jewelry store; wristlets of diamonds, rubies and sapphires; necklets of platinum chains, as thin as the sheerest of lingerie, with shining gems in their delicate pendants.

From all of these Yvonne had chosen a single ornament, a rope of shimmering pearls that would once around the slender, pertly poised neck.

"Miss Twenty-seven of the Silks" had completed her transition and awaited her summons into the magic world below—the magic world where money bought a smile or a kiss bought pearls like hers.

While Joanna stood before her mirror, Andrew Eggleston sat at the long carved table in the sombre-toned library of his house—which was not of the Avenue, but still on it, stubborn ghost of the days when the Avenue was jealous of its exclusive rank. Joanna's eyes caressed the loveliness her mirror reflected; a loveliness that epitomized, as in alabaster dust, all the pretenses of her kind. Her toes tingled with the promise of adventures. Dimples danced their provocation about her mouth. Through the filmy web of chiffons youthful limbs mocked at the cunningness of the couturier's mask of them; gold brown hair, hugged close to the restless head, delicately arched eyebrows shaped as only a painter could conceive them—lips and arms and bare shoulders made a marvelous ensemble of enticement.

Andrew Eggleston, in the heavy library room, also eyed a vision—also the figure of a girl, and of Joanna's age—but of a long time ago. The girl the banker watched looked down at him, from a canvas, held in its massive frame over the great fireplace. There was no dancing in her eyes, but

a wistfulness that seemed to reach out to the man who gazed, like a quivering beam of mellow radiance. The lips were blood red, and full, and shaped for a kiss, but they were not scarlet, nor voluptuous. They were as if there was no such a thing as a lip stick. The hair was brown, shimmering, as Joanna's, but it was not bobbed—but piled in glorious opulence. The banker, who would have been young when this girl in the gold frame was young, passed his hand across his brow, to break a spell with which the girl in the painting encompassed him. Then his attention fell to bits of paper spread before him like the jewels on Joanna's dressing table. One by one he picked them up and read them—read the cancelled checks which signified the purchases Joanna had made that day, checks that had been hurriedly cashed so the girl might take her purchases away with her. They totalled thousands, many thousands. At the jewelry store alone Joanna had spent more than a tenth of her million dollars. It was all totalled in the cancelled checks.

"The play begins! It is to be a comedy, after all!"

It was said quietly, evenly, but there was just a nuance in the tone that might have been repressed exultation. The speaker stood behind the banker, a figure in faultless evening clothes, silk hatted, white gloved. About his lips played the wraith of a smile—a cynical smile. In his eyes there was amusement. Just at that moment an ancient butler appeared at the library door and spoke:

"Your car has arrived, Mr. Brandon."

Eggleston started. "You will be seeing her, tonight, then?" he asked calmly.

"Yes. She will be plunged into the abyss tonight, by her new friend, Yvonne Coutant. She will swim like a sinuous mermaid through the sordid senses of half a score of old men whose lips she'll moisten with the sight of her, and half a hundred young men who will make wagers as to which will be first to break her. The end is in sight tonight."

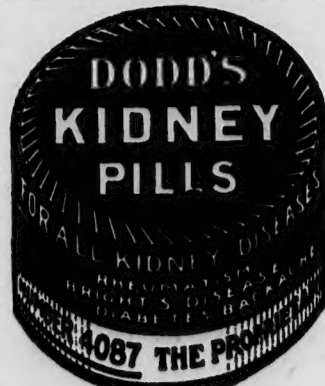

Eggleston did not reply for a moment. He raised his glance again to the girl in the painting. Then he said, heavily:

"Still, I'd like to see her—here, in this room. Arrange, some way, to bring her tomorrow."

Brandon bowed slightly, and went out of the room and to his car which waited at the curb. He gave his order briefly: "To Miss Coutant's."

Meanwhile Joanna, before her mirror, waited to be summoned to the old men and the young men, and their young women and old, downstairs.

Yvonne appeared in the doorway. The younger girl gave a little gasp when she saw her. In contrast to the soft white tones of Joanna's gown, Yvonne's was a shining black velvet that clung to the curve of her figure like a sheath, giving her vulcanite and uncovered back shone boldly and hair its complement. Her shoulders glistening white.

**WOMAN COULD HARDLY WALK**

**Mrs. Horn Tells how Lydia E. Pinkham's Vegetable Compound Restored Her Health**

Hamilton, Ont.—"I have taken Lydia E. Pinkham's Vegetable Compound and would not be without it now. I had a female trouble so badly I could hardly walk and I was all run-down and could hardly get around to do my house-work. I would be in bed three or four days at a time. I was told by a friend to try your Vegetable Compound. I did, and by the time I took two bottles I was beginning to get around again. I took ten bottles in all, and now I am all right again and doing my own work. I have six grown-ups to work for, so I have plenty to do. I also used Lydia E. Pinkham's Sanative Wash, and I think it is good. But I owe my health to the Vegetable Compound, and I think if more of it was used women would be better off. I would not be without it if it cost much more."

Mrs. NELLIE HORN, 28 St. Matthews Avenue, Hamilton, Ontario.

Do you feel broken down, nervous and weak sometimes? Lydia E. Pinkham's Vegetable Compound is excellent to take at such a time. It always helps, and if taken regularly and persistently, will relieve this condition. C

## Church Announcements

### EVANGELICAL NOTES.

#### Church Services

##### Sunday

10.30 a.m.—Morning worship.  
11.30 a.m.—Bible School.  
7.30 p.m.—Evening Worship.  
8.30 p.m.—Senior League of Christian Endeavour.

##### Wednesday.

7.15 p.m.—Junior League of Christian Endeavour. Study of Catechism, etc.  
8.00 p.m.—Praise and Prayer Service.

H. E. Roppel, pastor

Rally Day will be observed a week from next Sunday, October 17th. The Rally program will be given in the evening of that date.

The next Sunday morning sermon will be a continued discussion on the subject of "Public worship; Reverence and other aids to true worship."

On Sunday evening the Evangelical church is to be favored with the presence of Miss R. Duff of Toronto, who is widely and favorably known in the east for her social welfare work in which she has been engaged for some time past.

Miss Anna Mueller treated her Sunday school class with an auto trip to visit the Orphanage at Olds last Sunday afternoon. Mrs. J. Hehn, Mr. and Mrs. Boettger, and Mrs. (Rev.) Roppel also accompanied the group.

Mrs. H. Reiber, the Didsbury W.C.T.U. president, in company with a number of other ladies representing the sister churches in town, spent several days of this week at Red Deer in attendance at the provincial W.C.T.U. convention.

### KNOX CHURCH UNITED

Harvest Home Services will be held Sunday, October 10th, at 11 a.m. at Westcott and 7.30 p.m. at Didsbury. There will be special decorations and an appropriate sermon, also special music.

#### LONE PINE, JUTLAND

Lone Pine Hall, Jutland, Harvest Home Services will be held Sunday, October 10th, at 3 p.m. Rev. A. E. Hayes, of Didsbury, will conduct the services and Knox Church choir will assist.

A special Harvest Home supper and concert will be held Monday, October 11th. Supper from 7 to 9, after which a musical program will be held. A number are going from Didsbury to take part in the concert.

### BAPTIST CHURCH NOTES

Mr. Riemer regrets that he has been unable to conduct the Baptist services at Westcott and Zella the last two Sundays on account of illness. He hopes to resume his work on Sunday next. The services will be as follows—Zella at 11 a.m., Ellston (Sunday school) at 3.30 p.m. and Westcott 8 p.m.

#### ST. CYPRIAN'S.

(Church of England)

Priest-in-Charge, Rev. H. Clay, box 157, Olds.

First Sunday in month—Afternoon at 3.0 p.m.

Third Sunday in month—Morning at 11 a.m.

School is held every Sunday.

### Auction Sale

Under instructions from MRS. ROOD, I will sell by public auction at her residence on Hespler
